

Interagency Committee On Chemical Management  
ICCM/Technical Team  
Meeting Minutes: December 8, 2021  
Teams Meeting  
Facilitated by Peter Walke, ANR

**1. Welcome, Agenda Review**

Walke welcomed members of the ICCM and provided brief overview of the agenda.

**2. Review and approval of October and November meeting minutes**

November minutes need to add Patrick McLaughlin, DPS as attendee. Motion to approve both minutes by McLaughlin, seconded by Barth. Minutes approved.

**3. Prioritization discussion debrief**

Prioritization framework presented at CAP/Interested Parties meeting in November. No other feedback from CAP or interested parties has been received. ICCM anticipates utilizing this framework.

**4. Discussion of launch date for ICCM nomination process**

ICCM previously held off launching the nomination process due to State COVID pandemic responses and workloads/capacity. Walke asked members if the ICCM was ready to launch the process. Laughlin asked for an overview of the process. Giguere questioned if it makes sense to wait until the Health Department de-activates – staff currently have increased workloads. Jones identified that ICCM could review, but majority of the work would fall on technical team/staff. Members felt that when HOC is deactivated the ICCM could consider launching the process. Members also had concerns from a user/customer perspective that if the process launches and the ICCM is unable to move forward with nomination review, it could cause dissatisfaction. Consensus among ICCM members that when HOC is deactivated the ICCM can consider launching the process. Walke will discuss for Vose to ensure this is an appropriate approach.

**5. Agency legislative updates and initiatives**

- ANR/DEC: looking at recent private PFAS testing results, evaluating treatment of PFAS at facilities
- DPS: on-line training available for anyone looking for background information/knowledge on firefighting foam. DPS is also looking at firefighting foam alternatives that don't contain PFAS

Adjourned 10:30 AM.
